RE: Clarification due date for response motions

Dear Sir;

I received an order from you notifying me, the petitioner to respond to the government's response of my 60(b) motion by September 13, 2013. Two days later I received another order from your Honor to be prepared for a video conference on the 17th September 2013, to highlight certain parts of the challenge to the conviction. My question is do I still send in my response to the Government's response? or do I hold off until the video conference is over.

Thank you.

Sincerely,

Travis Holloway
